

# Elementary Math Monsters

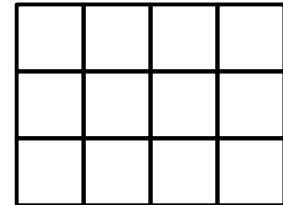

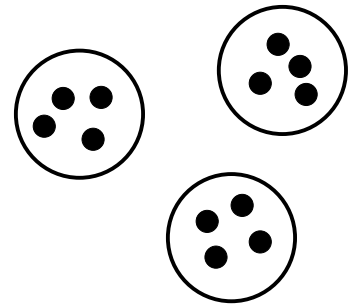

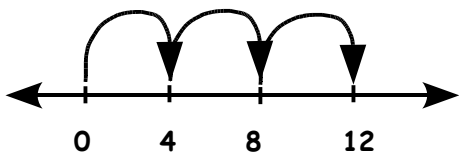

## Models for Multiplication and Fractions

### How to visualize multiplication:

- ◆ Groups (plates of cookies)
- ◆ Skip counting (jumps on a number line)
- ◆ Rectangles (area)

Cut card stock into playing-card-sized pieces. For each fact you want to practice, make a set or "book" of four cards. Use your cards to play Concentration or Go Fish.

$$3 \times 4 = 12$$

### How to visualize fractions:

- ◆ Pizza slices
- ◆ Fraction strips
- ◆ Parts of a group

$$\frac{3}{4}$$
